I think so, but the G drive is vast. I'll forward.

Not sure if I am familiar with the Grevatt Memo. Is it in the G drive?

Kate,

Issues that Jane mentioned to me for Q/A–

- Information about what AEs are and the criteria EPA uses to evaluate
- Information about primacy withdrawal – reasons, process

- More info about the next steps (maybe more on the next steps for media strategy/communication?)

- Information on fracking relative to the UIC issue

Grevatt memo on AEs may have some language for the first item. Otherwise, Michele and I can work on responses, although she is out today.

Thanks,  
David
